

Search for Short Term Vacation Rental (STVR) permits through the City’s eTRAC System
<https://etrac.savannahga.gov>.

QUICK STEPS

1. Registration is not required to conduct general searches.
2. To find the expiration date for a STVR certificate and a SVR # is known, select the “Permits” tab, then “Search” at the top of the page. Scroll down to “Permit Fields” and enter the “SVR number.” The expiration date can be found in the results.
3. Whenever a STVR number is not known, please search using the property address under the “Address Field.” The results will include all city permits associated with that address, and therefore, you will need to find the permit associated with the short term vacation rental by the “SVR” acronym.
4. For other step-by-step instructions, please use the “Help” link.

ANNUAL STVR RENEWALS: STVR Permit Holders are responsible to renew permits annually within 30 days of the permit’s expiration date. Property Owners will not receive a reminder notice from the City as it is the property owner’s sole responsibility to renew 30-days prior to expiration.
