

3121-020-GSM-gau (USMARC)

City of Savannah, Research Library & Municipal Archives, Savannah, Georgia [GSG (OCLC/LYRASIS)]

Record Series #: 3121-020

Name: Engineering Department, Major Subdivision Maps

Dates: 1871-1972, no date

Extent/Size: 249 maps in 14 oversize folders (3.0 cubic feet)

Language: English

Scope & Content:

The Engineering Department, Major Subdivision Maps (1871-1972, no date) includes 249 maps of Savannah neighborhoods and subdivisions submitted to the City of Savannah Engineering Department for review and approval. The maps were prepared by a variety of surveyors and engineers, representing the City of Savannah, Chatham County, and private engineering and architectural firms. Many of the maps are copies or tracings submitted to the Engineering Department. Some of the maps include approval information by the City Engineer, County Engineer, Chatham-Savannah Metropolitan Planning Commission and/or the Mayor and Aldermen of the City of Savannah.

The City of Savannah Development Services department (which the former Engineering Department was incorporated into) maintains additional maps of this record series in their offices. An inventory of those maps is available in hardcopy through the Research Library & Municipal Archives. The Major Subdivision Maps has a companion group of maps for Minor Subdivisions that is maintained by the Development Services department.

System of Arrangement & Ordering:

The Major Subdivision Maps are arranged numerically by map number (Map #001-A, 002-A, 003-A, etc.). The "A" indicates that it is a Major Subdivision map, as opposed to a Minor Subdivision map which would be labeled with an "M." Please see the attached inventory for a full description of the maps in this collection. Breaks in the numbering sequence represent maps that remain in the Development Services offices and were not transferred to the Library & Archives.

Conditions Governing Access:

None

Conditions Governing Reproduction and Use:

Please read carefully the statement on copyright below. ***Permission to reproduce does not constitute permission to publish.*** Researchers who plan publication are asked to discuss this with the archivist first for written permission. While most of the Library & Archives collections are public records and in the public domain, not all are, and the Library & Archives may not be the owner of copyright for all its archival materials. Researchers are responsible for obtaining any necessary permission to publish from the holder of copyright. In the event that the Library & Archives becomes a source for publication, a copy of the publication is requested for the Library & Archives.

Record Series 3121-020, Engineering Department, Major Subdivision Maps, 1871-1972, no date

NOTICE: WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve a violation of copyright law.
