

Dean Forest Road Disposal Facility

1327 Dean Forest Road

Available to City residents and paid subscribers residing in the unincorporated portions of Chatham County

Open: Mon-Thur 7 am - 4:15 pm | Fri 7 am - 3:15 pm | Sat 7 am - 2:45 pm

Closed: Sunday and City holidays

Dean Forest Road Municipal Solid Waste Disposal Facility is available for the disposal of waste materials generated within own domiciles. For the purpose of this policy, domicile is defined as a person's fixed, permanent, principal residence for legal purposes.

Materials accepted from City residents include garbage, household recyclables, yard trash, and excess household dry trash. Commercial waste, including waste generated from the management of rental property, is not accepted.

Tires may be accepted (No more than 4 total from the residence).

Bacon Park Transfer Station

6400 Skidaway Road (south of Bonna Bella Avenue)

Reserved for use by City residents only

Open: Wed-Sun 9 am - 4:45 pm

Closed: Monday, Tuesday, and City holidays

Materials accepted include household recyclables, yard trash, and excess household dry trash generated within eligible customers' own domiciles. Garbage and commercial waste, including waste generated from the management of rental property, are not accepted.

Tires can be accepted (No more than 4 total from the residence).

Additional Recycling Cart	\$50/cart

www.savannahga.gov/sanitation

Visit the City of Savannah's website at www.savannahga.gov/sanitation for current sanitation fees and other information.

Trash & Garbage

All trash and garbage must be disposed of in a clean and sanitary manner by placing such items into a Sanitation Department provided container for pick-up. Residents are responsible for keeping their cart clean. Carts should be placed at point of collection by 7 AM on scheduled collection day and removed by 7PM the same day.

Bulk Item Pick-Up

Large items (appliances, furniture, mattresses) are scheduled to be collected weekly without additional charge, provided they can be loaded in less than five minutes. Items taking longer than five minutes to load may be picked up at a later time and be subject to additional service fees. Large items should be set out beside your refuse cart at the regular collection point by 7 AM on scheduled collection day.

Yard Waste

Leaves, grass or sticks should be placed in brown biodegradable paper bags (15 bag limit) or containers (not City-issued carts) no more than 32 gallons in size. Larger sticks may be placed in small bundles of less than 4 feet that take no more than 5 minutes to remove. Yard waste bundles must be less than 4 feet in length, 12 inches or less in diameter, and weigh 40 pounds or less.

City Street Sweepers

Don't place anything in the street that could obstruct the path of the sweeper. Piles of leaves and other materials are bypassed by sweepers due to safety concerns. Leaves piled in the street or blown into the gutters add to surface water pollution and may also clog our storm water system causing flooding. Note the street sweeper hours for your street and make sure not to park in the sweeper zone during that time. Failure to follow these guidelines may result in additional service charges, citations, and further enforcement actions.

Street Sweeper Precautions

Did you know that the following are a violation of City Ordinance?

- Sweeping, blowing or raking leaves into the street.
- Dumping grass trimmings onto the street.
- Piling limbs in the street.
- Placing bags of leaves in the street.
- Putting broken appliances, vehicle parts, toys, or trash in the street.

Curbside Recycling

Your black and yellow cart is your link to the state-of-the-art curbside recycling system, called "single-stream recycling." Single-stream recycling allows you to drop all of your recyclables-- plastic bottles, metal cans, and cardboard -- into one, big cart. The sorting of those materials happens on our end at a processing facility. Your job is to ensure that only recyclables are tossed in the black cart, and nonrecyclable garbage/trash is tossed in the green cart.

Can be Recycled

Plastic

- Plastic Bottles, Jugs, and Containers #1 thru #7

Such as: soda, juice, water bottles, yogurt, margarine containers, or detergent and shampoo bottles

(emptied, rinsed, and without tops or lids)

Paper

- Paper items such as newspapers, inserts, junk mail, magazines, catalogs, phonebooks, paper back books, white and colored paper (without wax coating)

- Cardboard boxes (flattened), paperboard, brown bags (damp cardboard and paper products will not be accepted and are considered contaminants)
- Carton Recycling (Shelf stable and refrigerated)

Metal

- Tin, steel, and bi-metal used food cans (emptied and rinsed)
- Aluminum • beverage cans (rinsed)

Can't be Recycled

- Household waste, food waste, or food tainted items
- Yard waste or dry trash
- Plastic grocery and trash bags
- Styrofoam cups, containers, or packaging
- Hazardous household waste
- Automotive or electrical parts or materials
- Building and construction materials
- Medical waste or pharmaceuticals
- Wet or damp cardboard, pasteboard, or paper products
- Disposable diapers and tissues
- Cookware, dinnerware, pots and pans
- Wax paper and wax coated items
- Furniture and appliances
- Glass windows, mirrors, and lightbulbs
- Paper food trays
- Non-paper envelopes, carbon paper
- Items requiring special handling: lead, acid batteries, tires, liquid waste, paint, pesticides and herbicides
