

At-Home Activity: Build-A-Story Improv

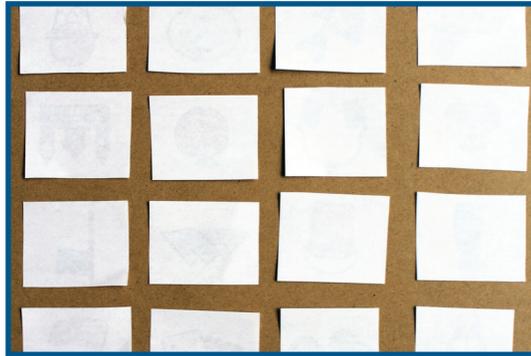

Supplies Needed: Printed tile sheet and scissors
Or create your own with pens(s) and paper

1

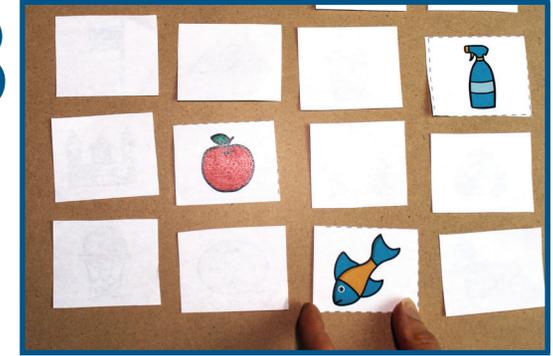

Cut out the provided icons into square tiles - or make your own!

2

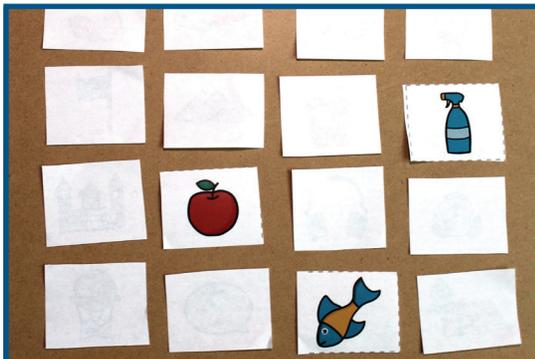

Turn the paper tiles upside down so that the icons are not visible.

3

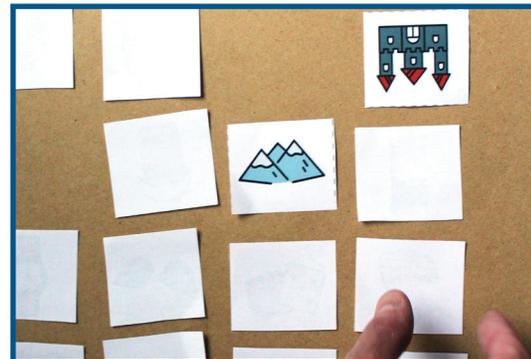

The storyteller turns over 3 tiles and creates a short story using all 3 images.

4

The fish found a magic potion that disguised her as an apple? Get creative - laughing is encouraged!

5

Take turns being the storyteller! You can mix the used tiles back in, or use new ones until the pile runs out.

6

Other Variations for Build-A-Story

- Make your own new tiles
- Instead of the tiles, use objects found in your home (ask permission first!)
- Share the storytelling with a partner, take turns adding a sentence to the story and see where it takes you!
- Have a non-storyteller turn over a new tile halfway through the story and see if you can fit it in!

At-Home Activity: Build-A-Story Improv

Cut out the tiles below to get started with the Build-A-Story Activity! You can discard the tiles as you go, turn them back over and find a new way to use them, or draw your own new icons!
