

At-Home Craft: Coffee Stain Abstract Art

Supplies Needed: Black Coffee Paper (cardstock or watercolor paper preferred)
Pen or Marker Cardboard or other material to protect work table
Optional: Straw, Paintbrush, Watercolors (or any other art materials you love!)

Set up on a disposable or cleanable surface.

Pour or drip one or two spoonfuls of coffee.

Spread the coffee around the paper. We recommend tilting the paper, blowing through a straw, making rings with the coffee mug, or using a paint brush for more control.

Allow the coffee to dry completely.

Draw! Using a pen or marker, draw around the stain. Use your imagination, there are no wrong answers! We recommend starting by tracing the stain, then as you start to see objects, trace them or draw them out!

Optional: add embellishments with watercolor, or any other art materials you have at home!
