

This document contains a list of medications that are excluded (not covered) on the Advantage Formulary. Here are some important items to note. A) This is not a complete list of medications excluded under your pharmacy benefit plan. B) Some drugs or drug categories listed may not be covered by your specific pharmacy benefit plan. C) Some drugs may have certain restrictions (ex. prior authorization requirements, quantity limits) or special copays. D) In some cases, VytOne may offer brand drugs at the generic copay, but exclude the equivalent generic products. The drugs on the list may change over time due to changes in drug pricing. For drugs in the program, members will always have access to either the brand or generic equivalent at a generic copay. E) Additional alternatives other than what is included in the table may be available. For specific questions about coverage or copay information, please visit www.vytlone.com and log in or call 1-800-687-0707.
