Annual mammograms are key to life-saving early detection of breast cancer.

Who Should Get a Mammogram?

- Women should begin **annual screening at age 40.**
- Women ages **35-39** are eligible for a baseline mammogram.
- Talk with your provider if you have a family history or additional risk factors.

What to Expect

- Safe, confidential, and convenient screenings.
- Advanced digital imaging for clear accurate results.
- The same trusted level of care provided at the **Telfair Pavilion Comprehensive Breast Center.**
